[903.7(r)]. If desired, provide a brief overview of the contents of the streamlined 5-Year/Annual Plan.

In the period from 2005 through 2009 the Municipality of Vega Baja will expand on the goals and strategies established in the previous 5-year plan, which were instrumental in enhancing the quality of life of our citizens, and will help us maintain the progress already made. However, some changes are needed in order to better adapt to our rapidly changing economic and political environment.

Thus, for this new 5-year plan we intend to develop a comprehensive plan of action that will take into account all of the needs within our community, regardless of whether or not we can supply them directly. This will help us identify unmet needs that might be affecting or hindering the impact of our initiatives in the community. Once discovered, we will contact other governmental agencies and/or private organizations that can intervene and serve our population, and develop agreements and alliances to support each other's work, in order to achieve maximum efficiency and continuity of services for our clients.

Some of our new strategies are aimed for more aggressive penetration in the general housing market, like decreasing our payment standards in order to stop rising rental housing costs applying for additional vouchers, and increasing outreach efforts to help our families make the most of economic opportunities available to them in order to foster homeownership among Section 8 participants.

Other strategies are aimed at addressing specific social sectors, like the elderly, disabled, victims of domestic violence and the homeless. Accordingly, we have adjusted our preferences for selection and admission into our Section 8' programs to give these groups an advantage, thus giving them a hand at full integration into our community and a better chance for stability and advancement.

In light of reduced funding in Section 8 programs in the past fiscal year and the rising need for adequate, affordable housing within our area, we are taking several steps in this upcoming 5-year period to decrease our costs and maximize the effectiveness of our assistance. Among these are: reducing our payment standards, increasing the minimum rent, establishing stricter rules for continuance of participation in our Section 8 programs, and more aggressive measures to recover monies disbursed because of fraudulent practices among our clients.

We are also giving top priority to continued training for our personnel, since all of the changes taking place within our programs and working environment make it essential to document and evidence every administrative decision to be upheld.

B. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families on the PHA's public housing and Section 8 waiting lists **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

The Municipality of Vega Baja has over 300 participants in its Section 8 programs. Budgetary cuts now make it essential for us to minimize our costs in order to comply with HUD's new regulations. Another concern are the 300+ requests for housing assistance. However, we cannot address this need with our current voucher allocation. Therefore, we will be implementing several measures that will help advance the availability of affordable housing in our community. Among these: lower payment standards to stop rising housing rental costs, continue providing homeownership counseling for non-Section 8 participants, and establish admission preferences that benefit disadvantaged minorities.

(1) Strategies

Need: Shortage of affordable housing for all eligible populations

Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:

	11 7
	Employ effective maintenance and management policies to minimize the number of

[24 CFR Part 903.12 (b), 903.7 (r)]

A. PHA Progress in Meeting the Mission and Goals Described in the 5-Year Plan

(Provide a statement of the PHA's progress against the goals and objectives established in the previous 5-Year Plan for the period FY 2000 - 2004.

Statement of Progress in Meeting the Five-Year Plan Mission and Goals

The <u>Municipality of Vega Baja</u> has met the Mission and Goals established in the Five-Year Plan for Fiscal Years 2000-2004.

We have been successful in promoting adequate and affordable housing, and economic opportunities in a discrimination-free environment.

✓ We maintained an average lease-up rate of over 95 %, assisting more than 300 eligible families in a

- fast, efficient and caring way.
- ✓ We encouraged both landlords and tenants to provide adequate maintenance to the properties rented through our rental subsidy programs by enforcing stricter inspection procedures and promoting our inspector's active intervention whenever we have received complaints about the state of those units.
- ✓ We helped six of our participating tenants to become homeowners through our HomeOwnership program option.

We briefed scores of interested persons about the state initiative "La Llave de tu Hogar", so they could apply for and receive this funding assistance in order to buy a home.

We have improved the quality of assisted housing services and performance through increased training of our Housing Division personnel through seminars offered or hosted by

- ✓ HUD Caribbean Office
- ✓ HomeOwnership One-Stop Center✓ Analytical Environment Systems International
- ✓ PHA Finance Corporation

We have increased the choices for assisted housing programs' participants by providing mobility and portability counseling, and conducting outreach efforts to potential landlords.

- ✓ We developed a mobility/portability option brochure to educate participants about these alternatives, eligibility, application procedures and feasibility.
- ✓ We contacted Realtors who manage rental housing to encourage their clients' participation in our Section 8 programs.
- ✓ We published a request for leasable units within our jurisdiction.

We have implemented and followed measures to promote deconcentration of lower-income areas.

- ✓ We identified higher-income areas within our jurisdiction based on Census data.
- ✓ We encouraged our participants to relocate on higher-income opportunity areas.

We have promoted the self-sufficiency of our participant families by providing education, skills training and work opportunities.

- ✓ We established an agreement with the Local consortium for referral of our clients
- ✓ We encouraged participation in job training programs, either funded by the federal government (such as WIA) or by the state government (such as ADT)
- ✓ We conducted several activities for briefing our participants about and qualifying them for the HomeOwnership option.

We have promoted and ensured Fair and Equal Housing Opportunity.

- ✓ We posted several signs through our offices that explain what Fair and Equal Housing Opportunity means, and which practices are outlawed.
- ✓ We incorporated guarantees against discrimination in the documentation explained to and signed by both landlords and assistance participants throughout the assistance process and when contracting the
- ✓ We briefed both tenants and landlords about fair housing practices and how to file a complaint for unfair housing practices through the HUD Caribbean Office.
- ✓ We helped our participants organize their Resident Advisory Board.

In the upcoming Five-Year period and in Fiscal Year 2005-2009 we intend to further these goals and also work harder at meeting underserved needs in our community; to foster and maintain affordable housing for Section 8 participants; to remove barriers to affordable rental housing and homeownership; to develop a better institutional structure through coordination with local, state, municipal and private agencies; to enhance coordination between public and private housing, health and social services agencies; to encourage our assistance participants to become more involved in the development of new management policies; and to encourage our Section 8 families to participate in the HomeOwnership program briefing sessions to start the process that will enable them to achieve self-sufficiency and homeownership further on.

14. Upfront Income Verification (UIV) Policy

In the upcoming Five-Year period, the Municipality of Vega Baja intends to uphold its income verification policy by securing and encouraging staff utilization of independent computerized sources for verifying household income of program participants.

This policy has been and will remain a key strategy in reducing income and rent errors attributable to unreported income and in increasing the accuracy and efficiency for determining family eligibility and computing rent calculations.

The verification of participants' income can take place before, during or after a family reexamination, by means of accessing HUD's centralized Tenant Assessment Subsystem (TASS), among other tools, including other computerized resources that systematically and uniformly maintain income information for large numbers of individuals.

Our housing agency already has the capability for accessing these computerized databases and has the intent of using them routinely (on a monthly basis) as a means of expanding on our income verification procedures by comparing tenant-reported income against database-reported information.
